

Fabrizio Luciano Armada

Backend Developer · Java & Spring Boot
fabrizioarmada3@gmail.com · +54 388 404 5447 · Jujuy, Argentina · linkedin.com/in/fabrizio3 · github.com/fabrizzio323

PROFESSIONAL SUMMARY

Backend Developer with experience in Java and Spring Boot in production environments. Developed 15 REST APIs for the Edumika educational system and built an e-commerce backend with JWT authentication, order management, and production deployment.

EDUCATION

University Programmer Analyst — UNJu – Faculty of Engineering 2022 — Present
75% completed · Expected graduation: 2027

CERTIFICATIONS

- REST APIs with Spring Boot — Todo Code Academy, July 2024
- Microservices with Spring Cloud — Todo Code Academy, September 2024

FEATURED PROJECT

EasyCommerce — Personal e-commerce backend in production github.com/fabrizzio323/easycommerce

- **Developed** complete layered architecture: Controller → Service → Repository
- **Implemented** authentication and authorization with JWT and role-based access (USER / ADMIN)
- **Built** persistent shopping cart, session management, and order tracking
- **Deployed** to production using Render and PostgreSQL

Stack: Java 21 · Spring Boot · JWT · PostgreSQL · Docker

TECHNICAL SKILLS

Languages / Frameworks: Java 21, Spring Boot
Security: Spring Security, JWT
Databases: PostgreSQL, MySQL, JPA, Hibernate
Testing: JUnit, Mockito, Integration Testing
DevOps: Docker, Maven, Git, Swagger/OpenAPI
Architecture: REST APIs, Clean Architecture, Microservices

PROFESSIONAL EXPERIENCE

Backend Developer — Dev Jujuy April 2025 — March 2026
Project contract completed

- **Developed** 15 REST APIs with Java and Spring Boot in a production environment
- **Implemented** JWT authentication and role-based access control
- **Integrated** PostgreSQL/MySQL with JPA/Hibernate
- **Participated** in the Edumika educational system
- **Documented** APIs with Swagger/OpenAPI

Head of IT — Secretariat of Welfare — UNJu April 2025 — Present

- **Administration** of IT infrastructure and technical support
- **Implementation** of solutions to optimize processes
- **Management** of systems and IT resources

Support Teacher — C++ Programming — UNJu February 2025 — Present

- **Teaching** programming fundamentals
- **Support** in problem solving and debugging
